

DATA SHEET

RUNPO 1 - special nylon tape Ø 4 mm

BEGINNING:

RUNPOGLIDER with special eyelet Ø 6 mm, pressed onto strand

ENDING:

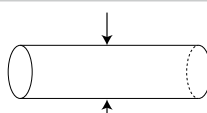

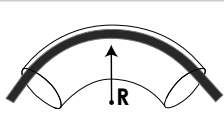

Eyelet Ø 6 mm, RUNPOTEC RG Ø 5 mm thread, screwed to strand

SPECIFICATION

(RRP/excl. of VAT)

LENGTH	5 m	10 m	15 m	20 m	25 m	30 m

DESCRIPTION

RUNPO1 - Special polymeric fishtape with an outer diameter of 4 mm. The significant difference between RUNPO1 to other comparable fish tapes is the patented flexible starting head RUNPOGLIDER with an excellent flexural and gliding behaviour and a breaking load of 170 kg. On the other end is an RUNPOTEC RG Ø 5 mm thread with a screwed eyelet. RUNPO1 is mostly used for short distances and smaller pipe diameter, the RUNPOGLIDER with the bigger eyelet on top should be used for pushing and pulling - the patented glider enables also to go over narrow radii very easily. All together RUNPO1 is a high quality fish tape with much more pulling force as a conventional nylon/plastic rods, for a lower price!
